Introduction

For the sixth year running we are proud to announce our Paediatric Neurosurgical Masterclass. Last year the course reached its largest audience of 120 delegates, which included European attendees across the two day event including Neurosurgical Trainees and Advanced Nurse Practitioners.

In past years the course has been taught by a very distinguished faculty from across the UK and Europe including surgeons, radiologists, physicians, academic professors and biomedical engineering.

The programme is still in development and will be circulated with more details in the coming months as speakers are finalised. In keeping with the requests of our delegates we use a variety of teaching styles including didactic lectures, case presentations, round table debates and guidance on neurosurgical techniques.

Please check our website for more information as it unfolds.
