1st International &
5th Annual Conference of Nepalese Society of Neurosurgeons (INCONESON 2017)
in Collaboration with
WFNS, AASNS & ACNS
March 8th to 11th, 2017
Kathmandu, Nepal

Theme: Reshaping Neurosurgery in South Asia: Controversy, Collaboration and Consensus
Message from the organizing committee

Dear Fellow Neurosurgeons and Colleagues,

We are pleased to announce that the first International and 5th Annual Conference of Nepalese Society of Neurosurgeons (NESON) will take place in Kathmandu, Nepal on March 8th to 11th, 2017. On behalf of the organizing Committee, we would like to cordially invite your to participate in the conference. Our theme of the conference is, “Reshaping neurosurgery in South Asia: Controversy, collaboration and consensus.”

This important meeting will showcase the local, regional and international leaders in neurosurgery. Broad range of topics including innovative concepts, new approaches, and personal experiences related to the whole spectrum of neurosurgery will be reviewed in addition to operative nuances and video demonstrations. Along with the plenary sessions, there will be two workshops (skull base by WFNS and cadaveric dissection by ACNS). The primary objective of the conference is to enable the delegates to enhance the care they deliver to their patients by facilitating the exchange of scientific information at the highest possible level. We hope that the INCONESON 2017 will provide an ideal opportunity to reconnect and share knowledge with friends in this regard.

The conference will be held in Yak and Yeti Hotel which is provide an ideal venue for the meeting in the heart of Kathmandu with many hotels, restaurants and shopping centers in walking distance. The official language of the meeting is English.

Reaching Kathmandu is very easy with the international airport of the country having connections to the major cities in the world. Nepal government provides visa on Arrival (VoA) for most countries. The climate in March is just perfect for the conference with opportunities for short mountain flight to be close to the highest peak in the world or a short pilgrimage to Lumbini, the birthplace of Buddha. Updates will be regularly posted on the official web site of NESON (http://www.neson.org.np).

We believe that each of you will have memorable scientific and social moments in Kathmandu.

We look forward to seeing you in March 2017!

With Warm regards,

Gopal Raman Sharma

Kathmandu

Framed by the spectacular natural beauty and a place of 8 of 10 of the highest peaks in the world, Nepal is truly the Shangri-La of the Himalayas. The whole country is a tourist’s delight (major source of income of the country) with famous trekking routes and trails waiting to welcome tourists. The city of Kathmandu, located in the Kathmandu valley, contains many UNESCO heritage sites with extraordinary cultural legacy along with all modern amenities available in any metropolitan in the world. The city is an ideal congress destination, combining state-of-art infrastructure, excellent conference facilities and easy worldwide access. Many hotels in Kathmandu provide visitors the benefit of comfortable and stylish accommodation combine with outstanding services at a affordable cost.

Accessibility

Kathmandu is connected to the Tribhuvan International airport, about 10 km from the conference center via a public transport system (including tourist and various bus and taxi services) that operates round the clock. The cost of a taxi from the airport to the conference hotel is around 10 USD.
